

BONDIOLI & PAVESI

EXTRA HEAVY DUTY BALER SHAFTS DESIGNED FOR USE ON BIG HIGH DENSITY (HD) BALERS

**MADE FROM PREMIUM QUALITY MATERIALS
LASTS LONGER
LESS DOWNTIME & RUNNING COSTS**

The SH series is the Extra Heavy Duty option, specifically for the biggest balers on Australian Farms

Easy to grease and built to withstand long working hours under harsh conditions.

Designed with a double Centering disk system for increased grease distribution and greater overall reliability from the Wide angle joint

Can be fitted with heavy duty overrun clutch which has proven to be the longest lasting overrun clutch on the market

The SH wide angle joint is capable of temporary driveshaft angles of up to 75° for tight corners! The recommended maximum continuous working angle is 25°

Renowned Bondioli & Pavesi Wide angle shafts are the number one choice for many Contractors and Farmers who require a long-life, premium quality, PTO Driveshaft.

*"I NOW HAVE 5 OF THESE
BONDIOLI SHAFTS ON MY
BALERS AND THEY ARE NEAR
INDESTRUCTIBLE, THEY HAVE
DONE THOUSANDS OF BALES
WITHOUT ISSUES"*

- Hay Contractor, VIC
